

# Pine to Prairie Relic Run

**July 3-5, 2023**

Five old cars, all built before 1932, will travel 545 kilometres from the Ontario border (“Pine”) to the Saskatchewan border (“Prairie”) along the *original* route of the Trans-Canada Highway.

The Relic Run, an initiative of the Manitoba Agricultural Museum, will raise funds to build a roof for the historic Tree Planting Car—a railway car that travelled the prairies for decades encouraging the planting of trees.
